

27 December 1979

MEMORANDUM FOR: C/CSG

FROM: [REDACTED]

SUBJECT: APEX Video Production

STATINTL

STATINTL

1. [REDACTED] from the Publications and Presentations Group (NFAC) and I visited the Badge Office and SRD in the afternoon of 26 December. Both areas offered what [REDACTED] believes to be suitable background coverage for files and records keeping to simulate an APEX like central registry. He would like to use both of these locations when he is ready to shoot the footage he needs.

STATINTL

2. We will visit SSC during the morning of 27 December to see the computers in operation. This may be the best simulation of an APEX like 4-C operation as well as provide the opportunity to call up an APEX access if it can be programmed into the system for the purposes of the video.

STATINTL

3. [REDACTED] will try to provide as much advance warning as possible before shooting.
